

June 9, 2004

The Honorable William Thomas
Chairman, House Committee on Ways & Means
1102 Longworth House Office Building
Washington, D.C. 20515

VIA FAX: 202-225-2610

Dear Chairman Thomas:

Dell supports passage of the American Jobs Creation Act of 2004 (H.R. 4520). We greatly appreciate your leadership on this legislation, and the very positive step represented by including a provision to allow repatriation and reinvestment in productive U.S. investments, creating jobs and maintaining the growth of our economy. Dell hopes that the House of Representatives will promptly pass this critical piece of legislation that helps Americans compete worldwide.

We look forward to working with members of the House to secure passage of this legislation that will help boost U.S. investment, and increase the ability of U.S.-based global employers to create and preserve jobs in the United States.

Sincerely,

A handwritten signature in black ink that reads "Becca Gould".

Becca Gould

Vice President

Government Relations and Public Policy
Dell Inc.
